WORK EXPERIENCE

Junior Software Engineer
My Secure Advantage | 2019 - Present
- Lead multiple reskin projects to modernize our public and in-house apps to utilize modern frameworks and libraries such as React, NextJS, and Material UI
- Maintain and introduce new features to our older code base that integrated the old technology with the new
- Work in a collaborate environment where cross-team planning is a necessity to accomplish strategic releases
- One of two developers responsible for building and implementing a complete refresh on our member-facing site

Website Manager
Becky's Flowers | 2019
- Lead updates of website's flower inventory based on seasonal changes
- Responsible for organizing, formatting, and editing media for proper cross-platform display online

Private Music Instructor
CB Music Studio | 2014 - 2019
Music Lab | 2018 - 2019
- Create personalized lesson plans for each student to meet their musical goals
- Manage and maintain a roster of 25 or more students

Barista
The Mill Sacramento | 2016-2018
Insight Coffee Roasters | 2015-2016

Electrician
